

Apple Class Learning Bulletin

19th September 2025

Dear Apple Class Families,

We have had another lovely week at school. The children have arrived at school this week eager to do their morning skills activity, one of which was cutting out and decorating a hot air balloon shape, to represent the start of their learning journey in Apple Class. Next week's morning skills activities will include creating a leaf person and a spider collage.

Today the children brought home their school library book (if they chose to partake). Please enjoy sharing the book together at home. **Library books will need to come back to school every Friday as this is the day when they will be changed.**

This week has been all about practising our classroom routines, including learning about the date, being a helper of the week and joining in with a weekly poem. This week the poem was called 'names' celebrating our uniqueness!

The children listened to the story of the Very Busy Spider and were introduced to the first Super Six Learning Power – **Commitment**.

We have started to get ready for Autumn! We went for a walk around our lovely school grounds, noticing some signs that Autumn is on its way and collecting some Autumn treasure.

In P.E. this week the children started to learn about listening to instructions and enjoy being active together. The children have been playing together so well, sharing their passions and interests during their Play and Learn time.

Well done Apple Class a great week at school!

How you can help at home...

Talk together about how your child is feeling and begin to recognise and name their emotions.

Read daily – sharing nursery rhymes and stories helps to build up listening skills, confidence and develops speech and vocabulary

Celebrate commitment – Praise your child for trying their best...displaying effort

Autumn collections – If you go out at the weekend look out for Autumn changes and please bring in your finds for us to work with in the classroom!

Reminder – Please name all your child's belongings that they bring to school.
