

Nursery Long Term Plan

Our aim is to provide a safe, happy, interesting and exciting learning environment, in which children can develop a growth mindset and a love for learning. We believe that securing the Prime areas of learning (Personal Social and Emotional Development, Physical Development, Communication and Language) is key, and offer a variety of high quality learning activities, whilst also introducing the children to the wider curriculum. Teaching is often based on children's needs and interests in addition to our class topic theme. The indoor and outdoor learning environment provide continuous provision which includes child initiated and adult led activities. Teachers observe, support and interact with the children throughout the day to support their individual needs.

We value the parent/school partnership and keep parents fully informed about what the children are learning about at school and suggest home learning ideas.

Nursery - Topic Overview
